madesmart® MY STORY

WOMEN
OWNED

In 1990 when I was 25 years old, I envisioned and created the world's first Junk Drawer Organizer®. That exciting first step so long ago, propelled me into a lifelong journey of raising the bar and establishing a new standard of home organization beyond the one drawer.

Today, millions of people are enjoying the wide range of premium products I'm so proud to share with you today.

Thank you for being with me on this journey, and enjoying our elevated organization experience.

We have four primary injection molding factories, as well as capabilities in silicone, polypropylene, polyethylene terephthalate and steel. Our drive to consistently innovate paired with our expert sourcing network continues to expand our material library to bring new solutions to life.

madesmart[®] ANTIMICROBIAL ENHANCED ORGANIZATION

When science meets organization.

Madesmart[®] is proudly beginning a new chapter in our design practice — creating organizational solutions that are made *smart* with infused antimicrobial additive.

Designed to provide ultimate peace-of-mind, madesmart[®] products are now infused with **Sanitized[®] — an EPA certified, antimicrobial additive** to inhibit the growth of bacterial odors on the product's surface, ensuring lasting, odor-free quality in organization throughout the home.
